

quadax valves inc.

Cancellation policy

Standard Products

Orders for standard products can be cancelled for any reason prior to shipment. Typically, most orders will ship 1-4 days after receipt. Our customer service desk can inform you of the status of your order and advise you if the order can be cancelled for a full refund. Once an item is shipped the terms of our **Return Policy** will take effect.

Special orders

Orders for non-standard items may be cancelled at any time by the purchaser prior to commencement of production. Once production has started or materials have been ordered, purchase orders are subject to a cancellation fee. All goods are non-returnable, and all sales are final.
